SUMMARY

Backend & Security Engineer with a focus on defensive cybersecurity (Blue Team) and secure API development. Experienced in building robust server-side logic using Node.js and Express, alongside securing cloud-native environments on AWS and Azure. Proven track record in vulnerability remediation, practical network security, and technical mentorship within professional ICT environments.

SKILLS

- **Backend Development:** Node.js, Express, RESTful API Design, Secure Server-Side Logic.
 - **Cybersecurity (Blue Team):** Network Reconnaissance, OSINT, Vulnerability Management, Information Security.
 - **Cloud & Infrastructure:** Microsoft Azure, AWS (Cloud Foundations), Docker, Netlify, Hostinger.
 - **Operating Systems & Scripting:** Linux Systems (Pop!_OS, Ubuntu), Windows OS, Python, Bash, CLI Automation.
 - **Tools & Protocols:** Git, GitHub, Virtual Machine Configuration, Cisco Packet Tracer, DNS Management.
-

EXPERIENCE

Cybersecurity Intern | SQI College of ICT

Ogbomoso, Nigeria | Aug 2025 – Nov 2025

- Transitioned from SIWES trainee to intern, executing defensive security protocols and integrating security best practices into web development workflows.
- Mentored students on core cybersecurity concepts and assisted in developing hands-on lab curriculums.
- Conducted practical vulnerability assessments and network security exercises in multi-platform environments.

Backend Developer & Security Specialist | Freelance / Independent Projects

Remote | 2023 – Present

- Architected and deployed secure RESTful APIs using Node.js and Express, managing full deployment pipelines via Netlify and Hostinger.
 - Managed custom domain setups, DNS mapping, and SSL configurations to ensure 100% uptime and web platform security.
 - Configured and optimized Linux-based development environments (Pop!_OS/Ubuntu) tailored for secure coding and testing.
 -
-

EDUCATION

B.Sc, Computer Science — Ladoke Akintola University of Technology (2024 – 2028 | *In View*)

CERTIFICATIONS & TRAINING

Cisco Networking Academy

- Introduction to Cybersecurity

SQL College of ICT

- Intensive Cybersecurity & Web Development Practical Training
-

TECHNICAL PROJECTS

- **Cloud & Infrastructure Testing:** Deployed and managed virtualized environments using Docker and cloud platforms (AWS/Azure) to simulate secure backend server setups.
- **Network Infrastructure Simulation:** Designed secure network topologies using Cisco Packet Tracer, configuring access control lists (ACLs) and VLANs for secure data routing.
